DETAILED ACTION

Response to Amendment

- 1. Claims 58-67 are pending in the instant application.
 - Claims 58-67 are under examination in the instant office action.
- 2. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 3. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.
- 4. Applicant's arguments filed on August 14, 2006 have been fully considered but they are not deemed to be persuasive for the reasons set forth below.

Claim Rejections - 35 USC § 102

5. Claims 59-67 stand rejected under 35 U.S.C. 102(e) as being anticipated by Ford et al., US Patent 6,337,072, filing date of 05/20/1998, for reasons of record in section 6 of Paper mailed on February 27, 2006.

The Declaration of Sims filed on August 14, 2006 under 37 CFR 1.131 has been considered but is ineffective to overcome the Ford et al. reference for the following reasons.

37 CFR § 1.131 Affidavit or declaration of prior invention, reads as follows:

(a) When any claim of an application or a patent under reexamination is rejected, the inventor of the subject matter of the rejected claim, the owner of the patent under reexamination, or the party qualified under §§ 1.42, 1.43, or 1.47, may submit an appropriate oath or declaration to establish invention of the subject matter of the rejected claim prior to the effective date of the reference or

Art Unit: 1649 .

activity on which the rejection is based. The effective date of a U.S. patent, U.S. patent application publication, or international application publication under PCT Article 21(2) is the earlier of its publication date or date that it is effective as a reference under 35 U.S.C. 102(e). Prior invention may not be established under this section in any country other than the United States, a NAFTA country, or a WTO member country. Prior invention may not be established under this section before December 8, 1993, in a NAFTA country other than the United States, or before January 1, 1996, in a WTO member country other than a NAFTA country. Prior invention may not be established under this section if either:

(1) The rejection is based upon a U.S. patent or U.S. patent application publication of a pending or patented application to another or others which claims the same patentable invention as defined in § 41.203(a) of this title, in which case an applicant may suggest an interference pursuant to § 41.202(a) of this title.

Further, MPEP 2305 [R-4] Requiring a Priority Showing, states

I. RELATIONSHIP TO 37 CFR 1.131 AFFIDAVIT

Ordinarily an applicant may use an affidavit of prior invention under 37 CFR 1.131 to overcome a rejection under 35 U.S.C. 102(a) or 102(e). An exception to the rule arises when the reference is a patent or application published under 35 U.S.C. 122(b) and the reference has claims directed to the same patentable invention as the application claims being rejected. 37 CFR 1.131(a)(1). The reason for this exception is that priority is determined in an interference when the claims interfere. 35 U.S.C. 135(a). In such a case, the applicant must make the priority showing under 37 CFR 41.202(d) instead.

Art Unit: 1649

Applicant's attention is further directed to MPEP 2305, part II for proper submission under 37 CFR 41.202(d).

6. Claims 60-62 stand rejected under 35 U.S.C. 102(e) as being anticipated by Ford et al., US Patent 6,541,623, filing date of 05/20/1998 for reasons of record in section 7 of Paper mailed on February 27, 2006.

The Declaration of Sims filed on August 14, 2006 under 37 CFR 1.131 has been considered but is ineffective to overcome the Ford et al. reference for reasons of record as applied to claims 59-67 in section 5 of the instant office action. Briefly, Applicant must make the priority showing under 37 CFR 41.202(d) instead of filing under 37 CFR 1.131.

Conclusion

- 7. Claim 58 is free of prior art and has utility as a marker of chromosome 2, see BPAI Decision of November 30, 2005. Claim 58 is allowed. Claims 59-67 are rejected.
- 8. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1649

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
